

BASIC ELEMENTS OF LOGIC MODELS

INPUTS

FOUR

What do you need to design or create those activities, resources, or services?

What You Invest

- Time
- Money
- Expertise
- Materials
- Equipment
- Space
- Technology
- Partners

OUTPUTS

THREE

What activities, resources, and services could bring about those changes?

What You Implement

- Activities
What you do
- Participants
Who you reach
- Direct Products
What you make

OUTCOMES

TWO

What is required for that to happen? And for those to happen?

What You Change

- Short Term
Skills, Attitudes, Learning, Aspirations, Motivations, Intentions, Opinions
- Intermediate
Behavior, Action

IMPACT

START HERE

What would it look like for the ultimate goal to be achieved? That is, for the problem or need not to exist?

What You Change

- Long Term
Conditions & Society
 - Social
 - Economic
 - Civic
 - Environment

Data Collection: Data type • Accessibility • Relevance (to whom) • Dissemination • Useful for making improvements? For building a case?

Assumptions

External Factors
